THE CONDOM FOR PREVENTION

For the prevention work of AIDS organizations, public health departments, and other social institutions, the AMARELLE 2-Pack was developed. These condoms meet the legal requirements for medical devices intended for distribution to consumers.

Background: The distribution of “loose” condoms (without outer packaging or instruction leaflet) is not permitted by law and previously made it impossible to trace the products or provide users with essential product information.

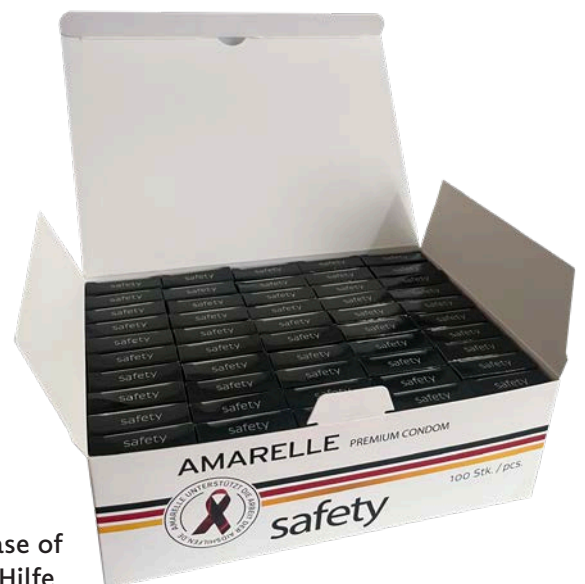

With two condoms per pack, this format effectively reaches couples who want to protect themselves. Thanks to its compact size (7 × 4.2 × 1.5 cm) and lightweight design (6 g), the pack is ideal for use at events, festivals, or for free distribution in public spaces. Supplied in a display box of 50 units, it allows for easy transport and sampling.

A portion of the proceeds from the purchase of this product supports the Deutsche AIDS-Hilfe (www.aidshilfen.de) and the HOPE Foundation (www.hopecapetown.com) in South Africa.

- With a content of 2 condoms, you can reach couples who want to protect themselves.
- With its compact packaging (7x4.2x1.5cm) and a weight of 6g, this pack is ideal for use at events, festivals or for free distribution in public spaces.
- A display box of 50 pieces is provided to facilitate transport and sampling.

LATEX-FREE CONDOMS

- SKYN condoms made of Sensoprene are not only recommended for people with latex allergies.
- They are also characterised by special material properties. „Sensoprene“ condoms are thinner to the touch and yet very tear-resistant. They can conduct body heat very well.
- SKYN condoms are free from animal ingredients and can therefore also be recommended to vegans.

CONDOMI LU:B – LUBRICANT WITH TRADITION

CONDOMI LU:B

200 ML TUBE
ART.-NO. 4707434
EAN 5011831094989
PZN: 5464738

condomi Lu:b is a water-based active lubricant and massage gel and probably one with the longest tradition in Europe. It was launched in 1997 and is still a real innovation today. condomi lu:b combines with the body's own moisture into a natural, highly effective lubricant and massage gel and compensates for a lack of lubrication.

The special thing about condomi lu:b is the ingredient hyaluron. We know the skin-tightening and rejuvenating effect of hyaluron from television commercials. However, this natural active ingredient has many more positive properties that are used for condomi lu:b:

Hyaluron is an endogenous active ingredient found in connective tissue and body fluids. This makes condomi lu:b particularly kind to the skin and mucous membranes. Hyaluron binds a lot of moisture and thus protects the skin and mucous membranes from drying out. condomi lu:b therefore reacts even more moisturized to moisture and effectively improves lubrication during intimate intercourse. Hyaluron forms a natural protective layer and thus protects against skin lesions and reduces the risk of injury.

PRODUCT PROPERTIES AT A GLANCE:

- COMBINES WITH THE BODY'S OWN MOISTURE TO FORM A NATURAL, HIGHLY EFFECTIVE LUBRICANT AND MASSAGE GEL
- IMPROVES LUBRICATION DURING INTIMATE INTERCOURSE
- PREVENTS PAIN DURING SEXUAL INTERCOURSE
- SUPPORTS THE RAPID HEALING OF MINOR INJURIES
- WATER-BASED
- WATER-SOLUBLE AND GREASE-FREE
- DERMATOLOGICALLY AND MICROBIOLOGICALLY TESTED
- SKIN-FRIENDLY PH VALUE
- COLORLESS AND ODOURLESS, TASTELESS
- SUITABLE FOR USE WITH CONDOMS

INTIMATE HYGIENE

Tampons and pads adé! The menstrual cup from FAIR SQUARED is free from plastic, silicone, BPA, PVC or phthalates. Our period cups leave no residue in the body and can be used for many years. The cup is pleasantly soft and adapts ideally to the body. It fits well and keeps tight without creating an unpleasant feeling of pressure. Unlike menstrual cups made of silicone or plastic, the Period Cup is a hygienic product made of fairly traded rubber. It is made of fairly traded and FSC® certified natural rubber from Sri Lanka.

FAIR SQUARED PERIOD CUPS ARE MADE FROM NATURAL RUBBER OBTAINED FROM THE HEVEA BRASILIENSIS TREE. IN SRI LANKA, THE TREES ARE CULTIVATED IN PLANTATIONS, SOME OF WHICH ARE OVER 200 YEARS OLD. THE PLANTATIONS AND THEIR MANAGEMENT ARE AUDITED BY THE FOREST STEWARDSHIP COUNCIL® ANNUALLY. THE PERIOD CUPS THEREFORE BEAR THE FSC® SYMBOL.

The FAIR MOVE Flex Bars are specially designed to take muscle strength training to the next level. Thanks to its outstanding ribbed design, this fitness bar not only provides a secure grip, but also allows for effortless gripping and twisting. This innovative design aims to strengthen the elbows, wrists, forearms and hands while increasing flexibility and mobility. It is also great for effective stretching and massaging of the fascia.

It is worth noting that these fitness bars require a resistance from 12 (light) to 20 (strong) kilograms to be bent into a U-shape. This challenge motivates to continuously work on one's strength and make progress.

With a length of 31 cm and a diameter of 4.5 cm, the FAIR MOVE Flex Bar is compact and handy, perfect for training at home or on the go. Made from fair trade natural rubber, this not only supports health but also ethical manufacturing practices.
